## COLEMAN NEGOTIATES FOR NEW AGREEMENT

Coleman, March 6.—The working agreement between International Coal & Coke Co. Ltd. and McGillivray Creek Coal & Coke Co. Ltd., expires on March 31, terminating day of the usual two-year term. Committees appointed by the miners association at a recent meeting are as follows:

International—James Hadley, Ernest Hill, William Lees, William H. Haysom.

McGillivray—John Atkinson, president of the local association; Max Stigler, secretary; George Ford and William Chapman.

They will negotiate with the mine managements for the agreement covering the next two years.

## BOY SCOUTS' JAMBOREE

The success of the Southern Alberta jamboree, to be held at Calgary on Easter Monday, April the 22nd, depends entirely upon the number of Scouts, Guides, Cubs, Brownies, Rovers and Rangers and their respective leaders who attend and take part.

This is not an annual affair—to the contrary it is possible only at long intervals. The last was in 1923.

Definite arrangements have been made for a special train to run from Coleman to Calgary for the big event. Train will leave Coleman about 9 a.m., stopping to entrain Scouts, Guides, their relatives and friends at Blairmore, Hillcrest, Lundbreck, Pincher, Macleod, Clareholme, Staveley, Parkland Nanton and High River. The fare will be approximately one cent per mile. Trains will arrive at Calgary at 30-minute intervals from 3 p.m. till 4:30 p.m. and upon arrival the Scouts, Guides, Cubs, Brownies, Rovers, Rangers and leaders will be given a hot dinner and then be suitably entertained until 7 p.m., when all will proceed to the arena to take part in the jamboree.

At the close of the jamboree, those who came by special trains will be taken to their train and served with sandwiches, cocoa, milk, etc.

The trains will start from Calgary about 11:30 p.m. Attention is drawn to the fact that these are special trains and that the fares are special. All persons desiring to use the return portion of the ticket must return on the train leaving Calgary at 11:30 p.m. Monday, April 22nd, otherwise they will have to pay the regular single fare for their return journey.

Guides, Scouts, Cubs, Brownies, Rovers, Rangers and their leaders will be admitted to the jamboree free. Admission for all other persons will be by ticket only—25 cents.

Any parents or relatives accompanying their children, who are members of the units, can, if they so desire, be supplied with a hot meal upon arrival at Calgary at a charge of 50 cents per plate.

The jamboree will be held on Monday evening, commencing at 8 o'clock.

The opening will take the form of a living Scout Emblem, the Fleur-de-lis, made up of Scouts, Cubs, Guides and Brownies. The chief and his party will arrive at 8 o'clock, and immediately the flag will be broken and "O Canada" sung, followed by the singing of the toast to the chief, followed by the address of the Chief Scout and Chief Guide.

It is expected that these opening ceremonies will take until 8:30. The arena will then be cleared for a half hour then opened for displays by Scouts and Cubs.

How on earth can Patterson, Williams, Uphill and other recent delegates to Russia reconcile their reports to those published recently in the Chicago Herald-Examiner, which are proven by actual pictures depicting starvation, etc., inflicted by Communists.

## THE PARLIAMENTARY SHOW (By J. S. Sawyer)

The most interesting, though not the most important, news from Parliament Hill this week, is that the government has engaged Major C. H. Douglas of Social Credit fame for a fee of \$5,000 to come to Alberta for three weeks to act as its adviser on "reconstruction."

The Major was here a year ago. Then he received a fee of \$12,500.00 for appearing before the committee of the House and expounding his theories. He left the House hopelessly divided and more or less "up in the air" at that time.

The Major's fee is payable in advance in coin of the realm. He is not taking any chances on being paid in social dividends. Wm. Aberhart, of Calgary, who only received \$64.30 as expense money for his appearance before the House committee last year may have a chance to test his plan against the Major's, if the latter will include platform discussions in his retainer.

People who talk of parties being always at logger-heads, no matter what the merit of the question, will have to revise their reproach. On several occasions in the past week both sides of the Legislature agreed on questions.

One was on the need of a rail outlet from the Peace River district to the Pacific coast, and urging the Dominion government to grant a subvention on all grain and livestock shipped out of the Peace River district until such time as a rail outlet is provided. The resolution which won the approval of both sides of the House was submitted by Messrs. W. H. Bailey, U.F.A. member for Peace River, and L. A. Giroux, Liberal member for Grouard.

Another resolution that won unanimous support called for road-graveling in the Peace River district. The U.F.A. members voted down a resolution put forward by the Liberal leader W. R. Howson and his lieutenant L. A. Giroux, specifying certain highways that needed graveling.

When a U.F.A. member followed with a resolution urging graveling without specifying the particular highways, the Liberals were not tricked thereby. They joined in and supported the second motion.

A third resolution that won general support calls for the amending of rules of court to reduce the red tape and expenses of court proceedings. Mr. Payne, K.C., of Red Deer, warned the government that it is itself the worst offender exacting high fees for juries and hearings.

A fourth unanimous resolution favored assistance to producers organizing under the Natural Products Marketing Act. Mr. Howson and his Liberal supporters swung their strength to the resolution after they had been defeated in their efforts to have the whole question of the marketing of natural products and those opposing it probed before the Agricultural Committee.

Where sharp differences came between groups was when "Joe" De-chene, Liberal member for St. Paul, charged the government with "the most criminal neglect of which I have ever known a government to be guilty" for its inattention to homesteading and land settlement in the province. He condemned the government for closing the northern land offices and in other ways making it difficult for homesteaders to settle in the north.

Frank Faulkner, Liberal member for Athabasca similarly assailed the government for its neglect of the salt areas in the McMurray district, saying it had played three different would-be producing companies against each other, with the result that it lost all three. While he praised the R.C.M.P. for their police work, he reproved the government for entrusting them with relief work, saying that

poor people suffered hardship while the police were away on their police duties.

A similar tongue-lashing was given the government by Hugh C. Farthing, Conservative member for Calgary for alleged maladministration of the Turner Valley gas resources. He demanded the dismissal of the present head of the gas and petroleum division, William Calder, whom he accused of "autocratic rule," and the placing of the valley under a cable commission.

Harvey Bossenberry, Liberal member for Pincher Creek attacked the government for seed grain and monitoring complaints, while Hugh J. Montgomery, Liberal member for Wetaskiwin, fired them for exceeding costs on various highways, for not forcing the contractors to pay their drivers for overtime, and for neglect of bridges. He roused the ire of the Minister of Industries for his denunciation of the action of the Ministers in buying a new "fleet" of cars for themselves while people were in need.

Driving at the point where the shoe pinches for thousands of people in the province, the Liberal leader, W. R. Howson, has placed a resolution on the order paper, condemning the present system of taxation as obsolete and inadequate, calling for a more equitable system of taxation for provincial, municipal and school districts, to avert the present loss of homes and lands, concluding as follows:

Whereas, the Commission on Taxation appointed by the government in 1934 has not yet made a report, and the government has announced that their final recommendations will not be submitted to the Legislature until some future date, although the question is one of great urgency.

Therefore be it resolved: That this assembly is of the opinion that immediate steps should be taken to effect the radical changes required in our system of taxation in order to

## NOTICE - BLAIRMORE BOY SCOUTS

A Boy Scout and Girl Guide Jamboree will be held at Calgary Easter Monday, April 22nd, in honor of Lord and Lady Baden-Powell, founders of the Boy Scout and Girl Guide movements.

A special train will leave Coleman that day at 9 o'clock a.m., and tickets have been arranged for at very reduced rates.

All interested Blairmore Boy Scouts (including Cubs) are requested to meet at the office of J. E. Gillis on Saturday afternoon, the 9th, at 4 o'clock, in order that all who desire to attend this Jamboree may receive full information and be listed for this memorable trip to Calgary.

SCOUT COMMITTEE.

#### The Brighter Side

For the past five years the people of Canada in common with those of other countries have been looking at the dark side of things, and during these years the picture at which they have been looking has become progressively darker and more gloomy. In fact, following the stock market crash in the late months of 1929, people generally did not seek to find any rays of light, they became more and more fearful, and preferred to dwell upon every unfavorable factor in the situation and to close their eyes and refuse to see anything that could be regarded as hopeful.

This state of mind spread throughout the whole country and, unfortunately for Western Canada, it was accentuated by reason of the advent of a cycle of abnormally dry years, accompanied by other climatic conditions, with their aftermath of pests and other drawbacks entirely beyond the control of man, and all discouraging and destructive of confidence on the part of people so grievously afflicted.

Under the circumstances the amazing thing is that people, taken on the whole, have displayed such wonderful fortitude, so much courage and such fine patience.

Within recent months the clouds of depression have been thinning, conditions have been slowly improving, and the time has come when, we think, the people of Canada may well, to their own advantage and further encouragement, take a look at some of the brighter things in our national life for which they have deep reason for thankfulness in comparison with the lot of other peoples and nations.

Unlike quite a few nations, Canada has maintained its national honor, has not repudiated but has met its national obligations. As a result, Canada stands higher than ever in the estimation of the world. It is a great asset that has not decreased in value but has been substantially increased, and that increased value will stand this Dominion in good stead in the years that lie ahead.

The general business situation in Canada is improving. In view of the economic depths to which the whole world had sunk, this improvement will naturally be slow at first, but it is gathering momentum and volume. The trade of Canada, both import and export, and internal as well, is increasing; the volume of business is becoming larger; railway revenues are rising; national revenues are substantially larger and are increasing, all of which means more employment in the not distant future, and especially so if action is taken to remove or materially lessen the many restrictions now imposed on trade.

Another bright side to the Canadian picture is to be found in the fact that, despite all the difficulties and problems, worries and sufferings of people, Canada has been remarkably free of riots and other forms of debauchery of the law which have characterized other lands and resulted in open strife and bloodshed. The Canadian people have kept their heads, and as a result they are winning through, just as the people of Britain are winning through.

Considering the past, the present and the future, there is another and very large and important spot of brightness, leading to hope and confidence for the future, in the fact that almost alone among the nations of the world Canada has been free and is free of the one great burden which rests with crushing force upon the world to-day. That is the burden of armaments, the enormous cost of warlike preparations. While other nations are paying an annual tribute reckoned in hundreds of millions, even billions of dollars, to the great war god Mars, the Canadian people are not called upon to do so.

A couple of small destroyers, one on either coast, and a handful of militia which is merely a reserve to the established police forces of the country to assist if and when necessary in the maintenance of peace within our own borders, but in no sense an army maintained for offense against any nation—that is all. With no great battleships, no standing army, no great line of fortifications, Canada lives at peace with the world, the friend of every nation, having no quarrel with any.

If this picture was otherwise, if the Canadian people were taxed to the limit, as other peoples are, to provide the god of war with the machinery and equipment of wholesale human destruction, then Canada might have cause to fear for the future. Fortunately, that is not the case.

Given a return to more normal and therefore favorable climatic conditions throughout Western Canada, with a removal of the artificial restrictions imposed upon the commercial transactions and business life of the country,—both of which conditions are not only possible but probable and ones we have every reason to expect,—and free from the entanglements of war-affrighted nations, the Canadian people without any undue optimism may well turn their eyes away from the darker picture of the past five years, and find renewed confidence and happiness in the brighter, better days now dawning.

#### Peace Garden

Beautification of the International Peace Garden on the Manitoba-North Dakota boundary has been undertaken by the Federated Women's Institutes of Canada, the Canadian Horticultural Council was told by Henry J. Moore, of Islington, Ont.

#### Grows Large Apples

Eight-pound apples have been grown by Mr. Lobitara Metauda, of Naganu, Japan. Although sour, they have a good flavor. Their size is the result of many experiments. Now they are to be grown for sale.

An English boy swallowed a safety razor blade. But every household is not equipped with boys to get rid of the pesky things.

#### Magic Of Science

Electric Lung Restores Speech To Persons Without Voice

An electric "lung" and a pair of magnetic hand cuffs, both new, have come out of the scientific magic box of the Bell laboratories.

They were shown at a meeting of the University of Michigan Club of New York by Dr. Sergius P. Grace, vice-president of the laboratories.

The lung substitutes electric current for air to make vocal sounds in the artificial larynx, which the laboratories invented to restore speech to about 1,000 persons in the United States who have lost their vocal cords.

The new instrument is placed in the mouth, much like a pipe. It pours into the mouth a pure tone which becomes intelligible speech merely by movement of mouth, lips and tongue in ordinary conversational manner. The voiceless person uses a pocket battery little bigger than a deck of cards. He puts his "pipe" in his mouth. He presses a button and the sound continues as long as he holds this switch closed.

The magnetic hand cuffs demonstrate the super-magnetic power of a new alloy which possesses 20 times the attraction of pure iron. With a cuff on each wrist, or held on each hand, the chain between is joined by placing together two flat pieces of the new metal.

The most powerful man cannot pull these plates apart.

#### WHY HIS HEADACHES CEASED

#### Wife Put Kruschen In His Coffee

He could not understand why the headaches he had been subject to suddenly ceased. His wife told him, and he at once sat down and wrote the following letter:

"I am 62 years of age, and ever since I was a boy of ten years I was subject to very bad headaches. But two years ago the headaches stopped for good. From that time on, I was surprised when one day my wife told me I had been using Kruschen Salts in my coffee for over two years. I am still using them, as I know of nothing finer for the system. My headaches can nearly always be traced to a disordered stomach, and to the unsuspected retention in the system of stagnating waste material which poisons the blood. Remove these poisons—prevent them forming again—and you'll never have to worry any more about them. It is just what Kruschen Salts brings swift and lasting relief from headaches. Kruschen Salts is nature's way to cleanse your body completely of all clogging waste matter."

#### Uses Special Board

#### Blind Player Is Having Luck At Monte Carlo

A blind gambler's luck is attracting the attention of visitors to the Casino at Monte Carlo, and some have found it profitable to follow his play.

Every day he arrives at the Casino alone and is escorted to his favorite place by one of the officials. He brings with him a special board covered with raised figures and on this he records the various numbers as they turn up.

His play is systematic without being sensational, and he is a player who gets up from the green table a loser. His identity remains a mystery. He knows little French.

#### Larks Damage Wheat

#### Farmers In England Have Started War On Songsters

Even if Schubert wrote an ode about it and Schubert was inspired by it to compose a beautiful melody, the lark is just a bird that damages wheat and other crops. So declare the farmers in the vicinity of Norfolk, England, and they have started a war on the songster. The Norfolk Agricultural Committee has excluded the lark from the new order under the Wild Birds Protection Act. Any one therefore may shoot it and have lark pie. "The skylark is a nice bird, but we can't live by listening to its music," said George Hewitt, an agricultural leader. The larks are said to invade England in flocks from Germany and Russia.

It was stated in London the British Poppy Day realized £11,000 more than in 1933, when the total was £511,853, the record collection being £524,650 in 1930.

The lobster chews its food before putting it into its mouth; a set of external food choppers cuts up the food before it is passed into the mouth proper.

#### DR. WERNER'S POWDER FOR HOLDING TIGHT

#### Township That Is Unique

Adamsfield, Australia, Isolated Although Only 24 Miles From Railroad

There has been discovered to the town of a township in Tasmania, Australia, which is unique, at any rate, in the southern hemisphere.

In a hotel, there is no church, no weddings have been held there, there is no clergyman, and the town is under the control of a vigilance committee.

The township is that of Adamsfield, less than 70 miles as the crow flies from Hobart, and only 24 miles from a railroad. From the railway, however, the only means of communication is by horse.

Some of the residents have not "been out end"—that is, made the journey out to civilization—for years, and it is possible for the stray visitor to get his way in to guess the year in which the womenfolk had left, by the fashions they are following.

The vigilance committee is a real power and has come into being because of the rare visits of a policeman on a four of inspection. The committee finds in the main that public opinion is the most effective weapon it wields.

Recently an area of agricultural land was taken up 15 miles "in" from Adamsfield, and every item of supplies had to be taken in on men's shoulders.

#### Nationalistic Policy

#### Sir Josiah Stamp Believes U.S. Policy Does Not Fit Needs

Sir Josiah Stamp, famed economist, in a speech before the American Chamber of Commerce said the United States "is pursuing a highly centralized nationalistic policy, which is ill-fitted to the needs of closely knit world trade improvement."

"The NRA codes," he said, "have not paid very great attention to international factors and the uncertain condition in America has been brought about by codes. The piecemeal treatment of the problem, national by nation, is wrong. It is unnatural for trade to be balanced between two nations. It is more important that trade with all countries be treated as a whole."

Sir Josiah stressed the importance of currency stabilization and said, "it is well known the United States were going to devalue another 10 per cent, it would help matters greatly."

#### Rather Hard Luck

Seventy-year-old Thomas Dresser has instituted proceedings to bring himself back to life. When he walked with his frayed bank book into a Victoria bank the other day he was surprised to find that he could not draw on his account for the reason that he was "dead." He had been declared dead by the Supreme Court of British Columbia and his estate had been ordered to be divided among his relatives.

#### Wants Tariff On Ice Cream

The Bermuda Board of Agriculture has recommended protective duties on ice cream and the raw materials thereof. The assembly referred the matter to its finance committee for investigation. The local dairy industry suffered, it was pointed out, because during 1933 there were 512 gallons of milk and cream imported from Canada, and 22,667 gallons from the United States.

#### Little Journeys In Science

#### ACETYLENE

(By Gordon H. Quest, M.A.)

Acetylene is a colorless gas produced by the action of water on carbide. It is prepared in large quantities for use as an illuminant and as a source of great heat. When heated it decomposes into hydrogen and carbon. It was by this method that the Germans prepared much of the hydrogen used for filling the Zeppelins in the World War.

When compressed in cylinders, acetylene is very explosive, since the heat produced in compressing the gas is sufficient to start decomposition. However, scientists have found that acetylene can be compressed with safety by forcing it at low temperatures into steel cylinders completely filled with some porous material which has been soaked in a liquid called acetone. The gas is very soluble in this liquid and under such conditions it is not explosive.

The chief use of acetylene is in the cutting and welding of metals. For this work the gas is burned in pure oxygen in an apparatus known as the oxyacetylene blowpipe. A temperature of about 4,800 degrees Fahrenheit may be obtained in this way. In taking iron structures apart the tip of the flame is held in contact with some part of the metal, until the metal is heated to a high temperature; then more oxygen is turned on and the hot metal at once commences to burn away. By moving the tip of the flame containing the excess of oxygen over the metal plates to be cut away.

Recently Langmuir, an American scientist, has invented a device known as the hydrogen-arc welding torch by means of which very high temperatures can be obtained. In this type of blowpipe a stream of hydrogen is conducted from a small tube through an electric arc maintained between tungsten electrodes. A temperature of at least 10,000 degrees Fahrenheit may be reached with this new torch.

#### GARDENING

Gordon L. Smith

#### Planting Nursery Stock

The proper time to plant perennials, roses, fruit trees, shrubbery and other kinds of nursery stock is just as soon as the ground can be worked. But of course there must be purchased first. There is a vast range of prices and quality. Only shrubs and trees that are in good condition should be considered. This means that the stems and bark must be pliable and green and will have plenty of good, live buds. There will be no dead growth, and this, as well as the top, will be soft and moist. Each plant should be wrapped separately. Grantee that good stock has been purchased, the next thing is to get it planted as quickly as possible and with absolutely no exposure to the open air. If the ground is still until with plow, open the parcel, soak in water, and plant in a shallow trench, covering the roots and most of the stems with earth firmly packed down. Leave here until permanent conditions are ready.

#### Spring Pruning

Most pruning is done in late winter or early spring. It is not a difficult task and does not require much essential with all sorts of shrubs, roses and both fruit and ornamental trees. Dead growth should be removed. Pruning at this time of year it may be difficult to detect dying from live wood. The general idea is to remove the old, and encourage strong growth and also turn out a tree or shrub which is fairly symmetrical.

With shrubs, pruning of the things that bloom late in the year, should be done early in the spring, but shrubs like the Spirea, which blossom in early summer, should not be touched with the knife until late summer. Special precautions are required with grape vines. If these are pruned in late spring, they will bleed profusely. The work must be carried out before the sap starts to rise. Commercial grape men leave a mere skeleton each spring as the fruit is produced on new growth.

Raspberries are borne on two-year-old canes only, so that after the crop has been harvested and the new canes well started, all old wood should be removed. Most of the ordinary roses are cut back severely after growth starts in the spring, and best results are obtained from climbing roses where almost all the old wood is removed in late summer after blooming is over. With flowering shrubs, the aim is to keep new growth coming on by the removal of weak three and four-year-old wood. Young fruit trees should be pruned beyond shaping slightly, but after they have started to bear fruit, considerable growth should be removed each spring, so that the fruit and air are distributed evenly through the whole tree.

One of the strangest businesses in London is the human skeleton business of G. Rouilly, who imports skeletons from Germany, Austria, Italy and Russia, and sells or hires them to medical students.

Football is a popular game with Eskimo children, particularly little girls, and the ball is made of seal skin stuffed with hair.

About one-third of New York City's 1,722,954 families live in Brooklyn.

#### Rolling down to Ogden's

to make the fragrant, friendly cigarette tobacco that gives a man real satisfaction in "rolling his own". Only the best leaves can pass the Ogden's test for mildness and smoothness and easy rolling. That's why Ogden's Fine Cut is such a favourite. Roll your own with Ogden's and you'll find it rolls them easier and rolls them better,—especially when you choose the finest cigarette paper, "Chanticleer" or "Vogue".

#### Canadian Percheron Association

#### Nine Directors Are Elected At Meeting In Brandon

The nine directors of the Canadian Percheron Association, elected by ballot, were announced at Brandon by A. M. MacPherson, secretary of the association.

The elected directors are: J. A. Stenmar of Ste. Anne de la Pocaite, Que.; Charles M. McCallum, Brandon, Ont.; M. W. Connel, Keweenaw, Ont.; James Ramsey, Portage la Prairie, Man.; Carl Roberts, Ste. Adolphe, Man.; Hardy E. Salter, Calgary, B. C.; A. Greenway, Acme, Alta.; J. B. Ross, Govan, Sask.; and L. A. Doan, Stony Beach, Sask.

The next annual meeting of the association is to be held in Toronto.

#### BUILD UP THE BLOOD

Mr. G. W. Volk of 14 Polette St., Hamilton, Ont., said: "I have been suffering from blood poisoning for many years. I have tried many remedies but have not found any that would cure me. I have now taken your medicine and I feel much better. I am able to do my work and I am in good health."

New size, tablets 10 cts., liquid \$1.00. Large size, tablets or liquid, \$1.25. Write to Dr. J. H. Clark, Buffalo, N. Y., for free medical advice.

#### Camel May Be Displaced

And now the motor car may displace the camel. By use of 15-ton transport units, recently tested over 10,000 miles in northern Australia, it appears adequate and cheap service can be provided in undeveloped areas, combined with economical road construction. The unit reduced the rates to the level of those charged for hauling by camel teams.

England is one of the greatest horse racing nations in the world with tracks all over the country.

#### Get Rid of Disfiguring PIMPLES BLOTCHES AND ALL SKIN RASHES WITH D.D.D.

Dr. D. D. Dennis' Liquid Prescription made and guaranteed by the makers of Campana's Italian Balm. Trial bottle 50c at your druggist.

## PROGRAM MAY EXTEND RADIO COAST TO COAST

Ottawa.—A construction program designed to give the national radio system complete coverage from coast to coast is contemplated by the Canadian radio commission. It was learned recently. The program, if ratified, would entail erection of new stations or increasing the power of existing stations in Nova Scotia, Montreal district, Toronto district to cover northern Ontario, Saskatchewan and British Columbia.

Action on the plans has been delayed, it was said, owing to lack of necessary funds. The program could be carried out, it is claimed, for something under \$1,000,000. With it would be associated a plan to extend hours of national broadcasting.

Execution of the commission's plans, it is contended, would overcome practically all difficulties and complaints now encountered in carrying on national radio in Canada.

The modern stations of reasonable power would be erected in various sections where coverage has been inadequate and from which complaints about radio conditions have come. Surveys show such areas exist particularly in the maritime provinces, a section of Quebec, a large part of Ontario, Saskatchewan, part of Alberta, and practically all the populated part of British Columbia.

With construction of new stations and extension of hours of national broadcasting, new and modern studios would be provided at points where most of the principal commission programs are produced. It is said that while reports from the commission indicate increasing satisfaction with the national radio service, the service is injured by complaints arising out of poor reception conditions and inadequate coverage.

Commission plans regarding special reception and re-broadcasting of British programs were announced some time ago. The special short wave reception station at Ottawa on which these programs will be received is expected to be in operation soon.

## To Repulse Air Attacks

Britain Would Utilize Recent Scientific Inventions

London.—Sir Philip Sassoon, under-secretary for air, announced in the House of Commons a decision to appoint a special committee to investigate the possibilities of countering air attacks by utilizing recent scientific inventions.

He said the decision was reached some months ago and that the committee was composed of Henry Tizard, director of the Imperial College of Science and Technology, as chairman, Professor A. V. Hill of the Royal Society and P. M. S. Blackett, professor of physics at the University of London.

The committee's report will be presented to the imperial defence committee.

## Hogs Are Hogs

But Those Produced In Canada Are Of Superior Type

Ottawa.—Hogs are hogs but some are better than others, believes Dr. Thomas Donnelly, Liberal house member for Willow Bunch. In particular Canadian hogs are better than American hogs.

"The American hog is not the Canadian hog," said Dr. Donnelly. "He is not a bacon hog at all. He is a lard hog. He is not as good as our best Yorkshire bacon hogs. The western member was comparing farm prices in Canada and the United States and maintained good Canadian hogs brought a lower price than their inferior brothers south of the line."

## Tourist Traffic Better

Ottawa.—Foreign automobile tourist traffic entering Canada during the past calendar year increased at most points, totalling 3,261,848 automobiles as against 3,066,587 automobiles entered in 1935, a gain of 195,261, according to a statement issued by Hon. R. C. Matthews, minister of national revenue.

## Will Need Canada's Wheat

Toronto.—Britain will continue to need Canadian wheat, notwithstanding recent extension of development of agriculture over there, Sir Francis Plouffe, high commissioner for His Majesty's government in the United Kingdom, told members of the Women's Canadian Club here.

## Imperial Press Conference

Vote Of Thanks Given To Major Astor Of London Times

Johannesburg.—The fifth imperial press conference concluded its sittings locally with a vote of thanks to Major J. J. Astor, chairman of the Times Publishing company, of London, who acted as chairman. The vote was passed with all delegates standing and applauding Major Astor for two minutes.

It was stated deliberations were eminently successful. Agreement has been reached on formation of a London committee to co-ordinate the work of the Empire Press Union and to look for lower press cable and wireless rates.

The conference referred to the Empire Press Union for inclusion on the agenda of next year's meeting of the new annual committee in London, a resolution for lower postage rates on British newspapers and periodicals mailed to the Dominions and colonies.

## Lack Of Fodder

Minnesota Man Brings Emaciated Animals To State Legislature

St. Paul.—Outside Minnesota's state legislature recently stood three emaciated animals—a horse, a cow and a pig—quite munched feed there. Surveys show such areas exist particularly in the maritime provinces, a section of Quebec, a large part of Ontario, Saskatchewan, part of Alberta, and practically all the populated part of British Columbia.

Inside the statehouse, the senate, although one of their number specifically denied the "exhibit" had influenced the action, promptly passed a measure to appropriate \$500,000 to be administered by the state executive council for livestock feed in western Minnesota drought areas.

The livestock was the property of Arthur Spencer, western Minnesota farmer, who engineered the one man "bony march."

## Show Big Increase

Savings Deposits \$5,000,000 More Than In January 1934

Ottawa.—A decrease of \$12,000,000 in bank note circulation at the end of January compared with December and a drop of \$5,000,000 in central gold reserve deposits were shown in the monthly report of chartered banks to the department of finance as on Jan. 31, 1935.

Demand deposits were down \$45,000,000 from December but \$500,000,000 greater than on the same date last year. Savings deposits increased \$5,000,000 in the month and \$62,000,000 in the year. Call loans in Canada were down \$10,000,000 compared with the previous month while current loans were down \$18,000,000 from December and \$50,000,000 compared with Jan. 31, 1934.

## Protest By Ethiopia

Desire A Peaceful Settlement Of Border Dispute

Rome.—Foreign office officials began drafting a response to the protest by Ethiopia against the continued sending of troops and munitions to Italian Somaliland.

The Ethiopian ambassador, Mr. Negades Yessu, delivered the protest—a note to the Italian government from Emperor Haile Selassie—that "Italy could retire its last soldier and its last cannon from Italian Somaliland and Eritrea, and Ethiopia would not touch a single stone in these two colonies."

The African emperor's statement also reiterated his desires for a peaceful settlement of the border dispute.

## Hughes War Resolution

After Warm Discussion Was Withdrawn In The Senate

Ottawa.—Warm discussion of the Hughes war resolution was followed by its withdrawal in the senate by its sponsor.

The resolution proposed, if Canada ever again entered war, she would wage it "with every ounce of her strength in man and material power," and that declaration of war should be followed immediately "by mobilization and conscription of human power and all the material wealth of the nation."

## Ask Free Text Books

Winnipeg.—The annual convention of the Manitoba School Trustees Association asked the Manitoba government to provide text books free in grades one to six inclusive. Education until the sixth grade was compulsory and text books should be provided, said the resolution adopted by the convention.

## Disastrous Fire In Moscow

Explosion In Pencil Factory Kills Twenty-Nine Persons

Moscow.—Twenty-nine persons were killed in an explosion and fire which destroyed the Krasnaya pencil factory on the outskirts of Moscow. The loss of life in the disaster was not disclosed for three days, and after the bodies of the victims were cremated.

The fire started shortly before midnight. All of Moscow's fire apparatus called out to combat the flames battled three hours before they brought the fire under control.

It was announced the factory and warehouse were a complete loss. Part of the workers thrown out of work by the fire had been sent on vacation. Others were absorbed by the Sacco-Vanzetti pencil factory, also in Moscow.

The explosion occurred in a high pressure compressor from causes not immediately determined. The blast sent a compressed air tank weighing one and one-half tons hurtling through two floors of the building and the roof. It crashed into the adjoining warehouse.

## Fear Drouth Will Continue

Western States Still Dry In Weather Bureau Report

Washington.—Continuance of dry soil conditions over a large area in the western great plains, foreshadowing a possible return of drouth conditions in part of the area devastated last summer, was reported by the United States weather bureau in its weekly weather and crop bulletin.

Severe dust storms were experienced in the western portions of Oklahoma, Kansas, Nebraska and parts of eastern Colorado and eastern Wyoming.

Weather bureau officials said dust storms were occurring much earlier than usual.

## SIR JOHN SIMON MAY VISIT RUSSIA TO TALK PEACE

London.—The cabinet at its weekly meeting was understood to have tentatively approved the sending of two of its internationalists to discuss European capitals to further the plans for consolidating peace.

While no official statement was forthcoming after the cabinet's session, well-informed political circles said the government had approved plans for Sir John Simon, foreign secretary, and Capt. Anthony Eden, lord privy seal, to go to Moscow, Warsaw and Praha after they visited Berlin.

Government quarters admitted an informal invitation from Moscow had been well received, and it was expected an official announcement shortly would confirm the report direct contact with Soviet leaders would take place.

Impelling the government to that action was its determination to leave no stone unturned in an effort to bring about an inclusive European settlement which would end tension on all frontiers.

These two members of Toronto Chinese Boy Scout Troop were among the 3,000 Scouts taking part in their annual old clothing collection in that city, when 150,000 articles of clothing and thousands of pairs of shoes were gathered for distribution to the needy.

## SURGICAL TRIUMPH

Dr. Claude S. Beck, above, performed one of the first operations on record for the relief of angina pectoris, a heart ailment which hitherto has been considered incurable. The operation was performed at Lakeside Hospital, Cleveland.

## Receive Recognition

Three Medals Are Awarded By Royal Society Of Canada

Ottawa.—Secretary Lawrence J. Burpee of the Royal Society of Canada, announced award of three of the society's medals to a Montrealer and two Ottawans. The awards are made annually.

Dr. Edward Montpetit of Montreal University, prominent French-language Canadian writer, was awarded the Lorne Pierce medal for literature. Dr. F. T. Shutt, former chemist at the Dominion experimental farm here, was awarded the Sir Joseph Flavelle medal for outstanding achievement in science. Brig.-Gen. E. A. Cruikshank, widely known student of the war of 1812, was awarded the Tyrrell medal for history.

## Reform Measures

Economic Advisory Council To Be Set Up

Ottawa.—Legislation to set up an economic advisory council as forecast in the speech from the throne is expected to be the next reform measure Prime Minister R. B. Bennett will introduce in parliament. It was learned here. The bill was practically ready, it was stated, but decision upon the three or more who will make up the personnel of the council had not been reached.

The board will act in the same capacity on matters dealing with economic progress of the Dominion as the national research council acts for scientific purposes.

## Jurisdiction Ended

Saarbruecken.—League of Nations jurisdiction over the Saar territory ended at 11:30 a.m. Feb. 28; it was announced. Geoffrey G. Knox, president of the governing commission, turned police authority over to Reich representatives.

## Court Martial Conviction

Captain Of Cruiser Renown Is Tried On Charge Of Negligence

Portsmouth, England.—Capt. H. R. Sawbridge, of the battle cruiser Renown, was convicted by court martial on a charge of negligence following collision of the Renown with the Hood.

The charge, that he caused to be "hazarded" the two giant war vessels during manoeuvres off the Spanish coast in January, was similar to that on which Rear-Admiral Sidney Baily, commander of the battle cruiser squadron, was acquitted. A third court martial is yet to be held, the trial of Capt. F. T. B. Tower, of the Hood, on which the rear-admiral's flag flew.

The court ruled that he be dismissed from his ship. The deputy judge advocate announced that the charge had been proved.

## Relief Standards Urged

Plan Made Public By Canadian Council On Welfare

Ottawa.—Establishment of a federal advisory committee on unemployment relief which would set up standards and principles of administration to which provinces would be bound was recommended in a national relief plan made public by the Canadian Council on Child and Family Welfare.

Provinces failing to observe the standards laid down by such a committee would be refused financial assistance from the federal authority. The outline presented by the council described the situation as urgent in view of the fact present agreements expire at the end of March while there were, the statement declared, 1,350,000 persons receiving unemployment relief.

## Lepers Killed By Chinese

Brutal Massacre By Villagers To Stamp Out Disease

Hong Kong, China.—The inhabitants of the fishing village of Walchow, which is on an island in the delta of the Pearl river, have risen en masse and freed their little island of lepers by carrying out a brutal massacre of the sufferers from the disease who lived nearby.

The lepers did not mingle with the other people on the island, but lived in a small settlement of their own. After the massacre, the leper settlement was burned to the ground.

## MAKES VIGOROUS DEFENCE AGAINST HIS MANY CRITICS

Doncaster, Yorkshire, Eng.—Prime Minister Ramsay MacDonald said here he will resign whenever he feels he can no longer "pull my full weight in the boat."

Defending himself and his National government against its critics, the prime minister said:

"So far as I'm concerned, I hold the position I do at the wish of my colleagues. When the moment comes they find my services too dearly bought, or when . . . I myself for one reason or another—and unfortunately there are many—am no longer satisfied that I can pull my full weight in the boat, I shall require nobody's advice to make up my mind what my duty is."

Mr. MacDonald disclosed the government is actively after financial speculators whose scandals, he said, "are beaming the financial probity of this country and damaging our credit in the eyes of the world." (The government's opponents in parliament have demanded an investigation of the recent crash of an attempted pool in pepper, which forced three firms to the wall.)

Replying to charges the government has been shielding speculators, Mr. MacDonald said there was no truth in such statements. The government is not shielding anyone, he asserted, "but the government is not going into a panic."

The prime minister also denied former prime minister David Lloyd George's charges that the government had turned down his "new deal."

"Mr. Lloyd George said 'I am going to produce from time to time the plans themselves—actual plans'." Mr. MacDonald said. "I'm still waiting. Until I see the plan I can neither accept it nor reject it. I certainly have not rejected it yet."

He asserted that the cabinet was willing to look at any plan any man has which offers solution of the unemployment problem.

## TO ESTABLISH A BOARD TO DIRECT GRAIN MARKETING

Ottawa.—The government has revealed it hopes to establish a board to direct the whole policy of grain marketing in Canada, domestic and foreign, to advise producers of probable world requirements of wheat and feed grains to obtain efficient regulations for distribution of grains in Canada.

It was made known efforts to stabilize export wheat marketing will be only part of the board's job which will include powers to buy and sell, store and ship.

Notice of motion on the House of Commons order paper that the board would be proposed to parliament contained no information regarding details of the plan and none was forthcoming from official circles. It was understood, however, that the question of rail rates on feed grains for domestic consumption will be closely allied with its activities.

According to the best information available the board will be given wide general powers to regulate the grain industry although it was considered possible no drastic change would be made at once in the present marketing machinery.

## Saarlanders Celebrate

League Of Nations Give Up Control Of Rich Coal Area

Saarbruecken.—Hilarious Saarlanders staged a second new year's celebration in the early morning hours to welcome March 1—the day the Saar is officially turned back to Germany by the League of Nations. From midnight on they hailed a "new and better time" with beer toasts, victory bells, frantic shouts of glee and patriotic songs.

Most Saarlanders greeted the day of return in cafes. Promptly at midnight the patrons arose with upraised stems and gave a lusty three-fold "victory hail" followed by a Hitler salute.

France and the League of Nations gave up control of the rich Saar coal basin to close one of the most hotly-contested chapters of the Versailles treaty.

To a thunderous "hell" from 300,000 throats, the French troops were hauled down from over the administration of the Saar domain coal mines. This preceded the final ceremony of handing over the territory.

As the flag was removed, staff and all, drums rolled and fireworks exploded for one minute. Then shrieking sirens at the pipheads joined factory whistles in shrilling a note of triumph. From the sea of faces massed around the administration building Nazi flags were thrust into prominence and hands were raised in the Nazi salute.

## Revived By Physician

Man "Dead" For Seven Minutes Brought Back To Life

Washington.—After having been "dead" for seven minutes, Vincent Montesi, 63-year-old former chef in the Brazilian embassy here, was revived by a Washington physician and is reported doing nicely.

It was learned Montesi's heart and breathing ceased for seven minutes during an operation for kidney trouble which he underwent here. He was revived by Dr. Frederick Reuter, who reached through an incision in the man's body and gently massaged the heart until it began to beat again. Montesi said the whole experience is "just a blank."

## Prepare Election Lists

Government Printing Bureau Will Have Lists In Type By April 1st

Ottawa.—The election lists will be in type at the government printing bureau by April 1. Secretary of State C. H. Cahan told the House of Commons. Most of the city lists have been printed already and delivered to the franchise commissioner.

The lists were prepared by enumerators at the country-wide census several months ago and will be used at the next election if it is held before or shortly after April 15. On that date there must be a revision of the lists bringing them up to date.

## Fake Relief Recipients

Three Rivers, Que.—At least 50,000 of the 180,000 on relief lists in Montreal are fake unemployed, drawing their relief cheques illegally and costing taxpayers about \$300,000 a month, A. Leon Trepanier, Montreal city council member, told members of the Jeune Commerce des Trois Rivières.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs. Mar. 7, 1935

Notice is posted in the local post-office, advising the ratepayers of the Town of Blairmore that a new by-law is to be voted upon by the proprietary ratepayers on March 25th (Lady Day to wit), which will permit the mayor and members of the town council to collect \$2.00 for their services at each session the council chooses to hold; also that the mayor may himself receive \$2.00 for each session upon which he presides, as well as another three bucks should he choose at any time to make any sort of a tour of inspection of works of the town.

There isn't a town on the map that has been howling more for assistance from the governments than the town of Blairmore since Bill Knight and his Reds took over the reins of office here, and in face of this fact, how can anyone figure out that the mayor and council, none of whom appear to be in dire need, should undertake to pay themselves from funds that the ratepayers in general cannot themselves dig up.

Ratepayers (and proprietary at that) should consider this matter seriously and see to it that the present administration receives no more than did their predecessors.

## WHERE CALF GOES WRONG

A letter recently appearing in the Calgary Herald tells the sad tale of a calf-kill. Somewhere between the farm and the glue shop, the calf's hide leaps in value. But no one seems to have the will or the way to trace the steps in the surprising spread. The writer says:

Just to illustrate a personal experience. The writer sold a calf skin the other day, almost freezing his fingers in the operation of removing same from animal. Now the price received through the usual channels was fifteen cents. Just imagine all the pent-up feeling that rose to the surface when I had to put an extra

20 cents on to it to enable me to buy a 25-cent lunch. The same day I purchased a pair of boots for a three-year-old boy, who had not a shoe to put on his foot, paying three dollars for them. The salesman placed special emphasis on this particular pair of boots, pointing out that the tops of these boots were genuine calf skin, with flexibility and durability. By the time he was through expounding things, I began to think I was a privileged person to have such a wonderful offering placed before me; but he knew, as well as I knew, there was not as much calf skin in those boots as adorned the animal's ears.

On my way home calf skins were ever uppermost in my mind, and I came to the conclusion I had been bamboozled. Certain factories must have come to the conclusion that the farmer's brains have ceased to function in regard to the principles of what is right and wrong, but it is always well to remember they are the backbone of this country. Weaken that structure, then the whole framework is liable to collapse—Ivan Nelson, Cochrane, Alberta.

## SOCIAL CREDIT

If every able bodied man or head of a family were assured of \$25 per month without work many would work no more and would soon sink to the level of paupers. For generally where there is no incentive, ambition is lacking and no capacity would be developed, consequently a large portion of people would be degraded.

Human life and talent were never meant to be restricted, and individuals cannot be measured by one yardstick. We have no right to attempt to reduce the ten-talent man to the level of the one-talent man. It would be a heavy load to the world.

There never has been and never will be a system evolved which will render man immune from loss and danger either through his own or another's fault.

I do not think we can get away from the injunction, "In the sweat of thy face shalt thou eat bread," nor do I think it would be a good thing for man if he did get away from work.

I am convinced that the present system of social exchange is much in advance of anything that has ever obtained, but it has its defects and abuses and must now be improved. If selfishness could be brought under control it would mean everything to

BLAIRMORE UNITED CHURCH  
Rev. Albert E. Lark, MinisterServe the Church that the Church  
May Serve You.

Rev. A. S. Partington, R.A., Rector

Services Sunday, March 10th:

Sunday School at 10 a.m.

Evening service at 7.30 o'clock.

The Bible class will meet every Thursday in the church at 7.30 p.m. Everyone welcome.

HILLCREST UNITED CHURCH  
Rev. John Wood, Minister

Services Sunday, March 10th, at 7.30 p.m.

No one can prove himself to be unique except by being unique.

Shakespeare proved he was a great poet by being a great poet. The Mayo brothers proved that they were great surgeons by being great surgeons. Even Christ could only prove Himself unique by being unique. Topic on Sunday, "The Son of God."

the system. To my mind, selfishness is the cause of the present depression.

I do not believe that humans can ever organize a perfect system and whatever changes are made will only lead to further changes as conditions change.

This Social Credit System is only a passing dream totally unfit for our present needs and impracticable. The civil law has no moral right to suppress the honest ambitions of capable citizens, and it would be a great loss to the world if it did.

The laborer is worthy of his hire, and some would say, "No more and no less," but I think a good workman is worthy of commendation. I have no sympathy with the idea of tying every man down to one level. Order is necessary, but uniformly degrading.

Many unfortunate men, moved with the idea that it would be a good thing for them to receive \$25.00 per month, jump at the idea and give the question of where the money is to come from and how not the slightest consideration, and after all this is the important feature of the whole matter and one which Social Credit still has to explain.

Thanking you for the space, I am, Yours truly,

Joseph Smith, Innisfail, Alta.

## JUNIOR CORRESPONDENCE CLUB

Brooklyn, New York,  
Feb. 25, 1935.To the Editor of The Enterprise,  
Blairmore, Alberta, Canada.

Dear Sir: The members of the Junior Eagle, the Junior department of the Brooklyn Daily Eagle, wish to correspond with Canadian boys and girls. Therefore, we would appreciate it if you would insert a notice in your paper to the effect that any boy or girl who wishes to have a Brooklyn pen-friend may write to the Junior Eagle Foreign Correspondence Club, Brooklyn Daily Eagle, Brooklyn, N.Y., U.S.A. They will receive a prompt reply from a boy or girl of similar age and interests.

There is no charge of any kind for this service.

Sincerely yours,  
AUNT JEAN,  
JUNIOR EAGLE,  
Brooklyn Daily Eagle.

Major Douglas' visit to Alberta is to cost the province \$9,000.

## A NEW CALENDAR

It begins to look now as if, beginning with January 1, 1939, we would have another new calendar. The great Protestant church bodies of the world, the Church of England, the Pope and most of the national and international business organiza-

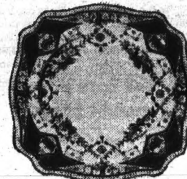

tions have agreed with the calendar committee of the League of Nations for a new international calendar, in which the year will be divided into four equal quarters, each containing two months of 30 days and one of 31 days, with an extra holiday, or "Year Day" between December 31 and Jan-

uary 1, and in Leap Year another intercalary day between June and July.

Easter would always fall on April 8, and every month would always begin on the same day of the week, every year. New Year's Day would always be Sunday, the Fourth of July always on Wednesday.—Ex.

Bright Stories  
about Wine

## PORT'S POPULARITY

Wines have been a favorite subject of taxation as long as they have been imported, and this fact explains the great popularity of port in England, for it was the reduction of an import tax which gave it a start no other wine, unless it might have been sherry at a later period, was ever able to overtake.

For taxation purposes wines were divided into classes, those from France and Germany being one, and those from Spain, Portugal, Cyprus, Palma and Madeira being the other. The difference was not inspired by political considerations, but the French and German wines were supposed to be light beverage wines, while the other wines were sweeter and heavier. For a long time the heavier tax made the sale of Portuguese and Spanish wines extremely difficult.

Then the English merchants in Portugal, who controlled much of the trade, approached the home government and protested that their wines were really not sweet wines, and therefore should not be taxed more than their French and German competitors.

Soon afterwards in 1703 the Methuen treaty was signed which among other things that were to have great significance in the future, provided that Portugal wines should be admitted at 7 1/2 a ton duty. Since the French wines were taxed \$55 this was an extraordinary concession, far in excess of what the Portuguese winners and exporters had looked for. The treaty immediately established port as the favorite English wine and it is well within the mark to say that it has never relinquished this position.

This advertisement not inserted by the Alberta Liquor Control Board or the Government of the Province of Alberta.

## BELLEVUE HAPPENINGS

Mrs. J. Shevels entertained a number of friends at her home on Saturday evening.

The Ladies' Aid of the United church held an "At Home" in the church parlor on Monday evening. A very pleasant evening was spent in singing and a programme, after which hot dogs and coffee were served.

J. Johnson, who was a week end visitor in town, rendered a solo at the Sunday evening church service in the United church.

Mrs. F. Wolstenholme entertained a number of friends at her home on Monday evening.

The concert and dance, sponsored by the Social Credit group and held on Thursday night, was a huge success.

Mrs. C. Bogan left by Friday afternoon's train on an extended visit to her home in Germany.

Mr. and Mrs. N. McDonald entertained a number of friends at their home on Thursday evening last.

James Tutt was a Stately visitor on Sunday last.

## PROPOSED IN 1839

## MARRIED IN 1934

Tesho Pavlovics, a Serbian peasant, was 110 last month. Recently he was married for the fifth time. The wedding day was the 106 birthday of his bride. He first proposed to her in 1839. She was then 11. Her name was Vesela Vaskovics, and her father, a rich peasant, forbade the match, as he thought the boy and girl were then too young to enter into an engagement. After consoling himself over a period of eighty years with four wives—each of whom lived for twenty years—Tesho again thought of Vesela. She had become a widow, and had no objection to becoming Mrs. Tesho Pavlovics at last. In an interview she said that Tesho had not changed, and was still the fascinating boy he used to be.

## COWLEY HAPPENINGS

Peter Veregin, head of the Doukhobors in Canada, accompanied by his secretary, J. P. Shukin, arrived here on Monday to visit the local colonies.

The annual meeting of the Alberta Wheat Pool was held in Cowley on Wednesday afternoon, when J. J. Strang, director, who was the principal speaker, explained to the members the year's operation of the pool. E. I. Duffield, pool delegate, was also present.

Miss Connelly, of Arrowwood, is spending a few weeks here, the guest of Miss Avis Horning.

Miss Phyllis Smith, of Lundbreck, and Mr. John Connelly, of Calgary, were united in marriage in St. Joseph's church here on Monday morning.

Rev. Father O'Dea performing the ceremony. The newly wedded couple will take up residence in Calgary. The bride, who was born and raised in the district, is well known here. Her many young friends gave her a shower on Friday evening, Mrs. Walters, of Lundbreck, kindly lending her home for the occasion, when she was the recipient of many beautiful and useful gifts.

The Porcupine Hills Dramatic Society staged a play entitled "A Prairie Rose" on Friday night in the Tanager school house, which proved to be a huge success, time of staging the play being four hours. The cast was as follows: Mrs. Henry Bougerolle, Miss Marjorie Cleland; Miss Eliza Maufort, Miss Ellen Smith, Fred Hewitt, Andrew Dumont, Angus Maufort, Billie Legarde, Leonard Wright and Albert Bougerolle. After the play dancing was indulged in until the small hours of morning. The net sum of thirty-two dollars was netted, which will be added to the baseball fund. It is reported that the society will stage this play at other points in the near future.

The Home Helpers' Club was entertained by Mrs. George Porter at her home on Thursday evening. This group of women are now suggesting plans for cleaning up and beautifying the Cowley cemetery, and looking after neglected graves by way of filling sunken ones up and planting perennial flowers and shrubbery on them. On this occasion, gentlemen were invited to attend, and after the business of the meeting was disposed of a right jolly game of five hundred was indulged in.

## THAT \$25 A MONTH

In a statement published by the Calgary Albertan last week, Mr. Aberhart is quoted to the effect that the "basic dividend" of \$25 a month of which so much has been heard was a figure used "merely for illustration purposes" and "not intended to be construed as a binding declaration."

The Alberta Provincial Douglas Social Credit Association, in a letter to the press have urged that this declaration be widely broadcast. By this means much misunderstanding will be removed.

With this suggestion we cordially agree; for we are afraid that Mr. Aberhart's speakers throughout the province have failed hitherto to make it clear.

Not only that, but the rank and file of his supporters, in letters to the editors of newspapers which we could quote at length, have made it quite clear that they did regard the "\$25 a month basic dividend" as a clear declaration of the amount which it was proposed to distribute. Throughout the province large numbers of people have been led to this belief.—The United Farmer.

Harry Williams, of the Mountain Mill district, died at the Edmonton University hospital following an operation for tumor on the brain. He had been wounded in the war and also suffered from concussion which had developed later. Besides Mrs. Williams, who was with him in Edmonton, he is survived by two brothers, one in Calgary and the other in Rockyford.

## Local and General Items

John H. Good, aged 83 years, who came to the west in a covered wagon in 1902, locating in the Pincher Creek district, passed away at Pincher Creek on Tuesday morning.

Tom Three Persons, of the Blood reserve, was found guilty of procuring arson and was sentenced by Chief Justice Simmons at Macleod to serve twenty-three months in Lethbridge jail.

Coach Towell, of the Clareholm hockey team, was a spectator at the big Drumheller-Coleman game on Saturday night, accompanied by Doc Hynes, Bobby Powers and some others.

Mrs. A. Horning, Miss Avis and Norman, of Cowley, spent the week end in Arrowwood. They returned home, accompanied by Mrs. C. Johnson and Miss Ruth Beagle—Bow Valley Resource.

Nothing is too small for Blairmore! Last week end, a local auto dealer was ordered by the town to move his truck display off town property. That's Blairmore's system of encouraging business.

The Newfoundland sealing fleet of nine ships sailed for the icefields yesterday. Capt. Abraham Kean, on his forty-seventh consecutive trip, is commanding the Beothic. Capt. Kean is in the eighties.

Rev. George G. Webber, field secretary of the Lord's Day Alliance, who addressed a meeting here last week, apart from several clergymen and their wives, was greeted by a Blairmore audience of one.

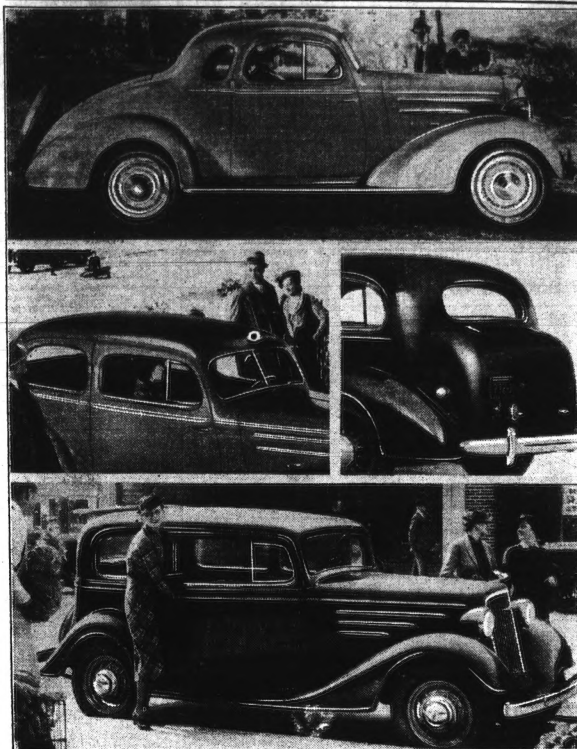

John Skrut was found guilty of the murder of Alex. Smoliak at Vegreville, and sentenced to hang May the 15th. Skrut was a farm employee of Smoliak's. The crown blamed relationships between the hired man and Mrs. Smoliak as the motive for the crime. Mrs. Smoliak also faces a murder charge.

A young woman was extremely vain of the honors conferred upon two distant male relatives. She talked on the subject to all and sundry: "I have two relatives in the House of Lords. Have you any?" she said. "No," replied one of her acquaintances, "but I have three maiden aunts in the Kingdom of Heaven."

Prominent in the great body of hockey fans at Coleman last night were noticed about twenty Indians from the Peigan Reserve. A few years ago, the Brocket Indians had a hockey team that proved a real drawing card in games against Macleod and Pincher Creek. They are still interested and should be encouraged.

Enroute to New York where he expects to make arrangements for an expedition into Tibet in quest of live specimens of the giant Panda bear, Captain Byron Tate, former Canadian army officer, left Montreal a few days ago for Toronto. Harrowing experiences were the reward of Captain Tate's party, which left New York last September on a similar expedition. Their vessel got into difficulties in the Celebes Sea. Food ran short and, for several days, the ex-

## 1935 Chevrolets Master and Standard Announced

## BEAUTY, STYLE AND PERFORMANCE EMPHASIZED

New 1935 Master and Standard models have just been announced by Chevrolet. The Master models depart distinctly from previous Chevrolets in body design and the solid steel Turret-Top body by Fisher is one of the striking improvements.

Above is shown, the Chevrolet Master 2-passenger coupe. Centre Standard Coach, which achieves virtually the same performance as the Master. There are six models in the Standard line and ten in the Master line.

plorers and scientists subsisted on salt fish and rice. The vessel finally made port off Borneo, and there the party broke up. Captain Tate expects to return to the Pacific Coast within the next two months to resume his expedition.

Several minor car accidents were reported last night, following the hockey game. It was estimated that upwards of eighty cars from the outlying district, Fernie to Lethbridge, found parking space at Coleman. Garages were early filled to capacity. In general, Coleman looked like the good old times.

The exploiters have got hold of Mr. and Mrs. Olivia Dionne and inspired them to take steps to secure the custody of the quintuplet babies. Naturally, the parents should have the custody of their children, but for benefit of the baby girls, other arrangements were made in this case. But the showmen are not concerned about parental love. They want to get hold of the famous quints to gather money by showing them. They know that the Dionnes need the money, but the showmen will

take the larger percentage of any dividends accruing from showing the Dionne flock.—Macleod Gazette.

The United Mine Workers of the Acadia Coal Company recently voted 595 to 254 in favor of the new wage scale proposal of the company. The vote ran: Yale 101 for, 45 against; Allan shaft 132 for, 76 against; Albion 121 for, 120 against. The new wage scale provides for an eight-hour day for all surface employees, in addition to a five per cent increase for all under and overground employees. The new scale is retroactive from February the 1st.

The appeal of the MacMillans against the decision of the Alberta appellate court in upholding Mr. Justice Ives' dismissal of the suit against Hon. J. E. Brownlee, will not go direct to the privy council in England, the time limit for the filing of the appeal having expired without the MacMillans' counsel, Neil D. Maclean, K. C., having taken the necessary action. It is stated that the appeal may be taken to the Supreme Court of Canada.

Mr. W. H. Chappell, senior, spent a quiet but happy day on the occasion of his eightieth birthday on February the 17th, at the home of his son-in-law and daughter, Mr. and Mrs. Arthur Hicks, 10119 - 121st St., Edmonton, where he has been staying since October of 1933. Mr. Chappell wishes to thank those Bellevue friends who so kindly remembered him at this time, and would welcome the to visit him any time they come to Edmonton.

Alice (to captain): "Why do they have knots on the ocean instead of miles?"

Skipper: "Well, you see, they couldn't have the ocean tide if there were no knots."

Son: "Say, paw, the teacher asked me to find the greatest common divisor."

Dad: "Great heavens, is that thing still lost? The teacher had me hunting for it when I was a kid."

He: "There are an awful lot of girls who don't want to get married." She: "How do you know?" He: "I've asked them."

## THE TENDERFOOT

By  
**GEORGE R. ROONEY**  
Author of "The Coronado Trail",  
"The Canyon Trail", Etc.

## SYNOPSIS

"You've fallen heir to a half-share in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into ruin."

Dad Kane, desert rat and jackass prospector till now returns to tell Dustin and Spike Goddard, who had grubstaked him, of his discovery of a rich gold mine, and shows samples of the ore.

Dustin unexpectedly comes along while Stone and Edith are riding fence, and seeing them, stops and talks to Edith. He mentions their dispute could be settled by having him and Edith refuse his proposal with remarks that make Dustin furious. He insults Stone, who promptly throws him into a pool of water.

Stone tells Crows, his foreman, about his meeting with Dustin Stone and Crows go to Seco to send a telegram to Gerald Keene. While at Seco an attempt is made to kill Stone, who proves more than a match for his enemies.

Dustin learns that Gerald Keene has been sent for, and also that Duro Stone has seen the Broken Spur men rustling Carr's cattle. He sets out with Dad Kane to learn the location of his gold discovery. Dad Kane shows Dustin the mine.

They go back to camp, and Dustin shoots Kane. He sees the shooting on Peyotl Gregg, a drug-addict who, stupefied by Kane's shot, had taken, did not know whether he was guilty or not. They bury Kane and then return to the Broken Spur ranch. Meanwhile at the Hour Glass, Carr, Crows and Stone speculate as to the meaning of the crime in the notebook belonging to Dano Kane that Stone had found. Stone thinks of a possible solution, and, accompanied by Edith Carr, rides out to Red Water to test out his theory, which proves correct, and they find the rich gold deposit mentioned in the prospector's notebook. As they return to the ranch, they meet Dustin leaving the house, who purposely, but unsuccessfully tries to ride down Stone.

(Now Go On With The Story)

## CHAPTER XIII—Continued

"Wait a bit. I've got a better plan than that. . . . Dustin grins the grin of a dog who sees the meat that he intends to seize. 'Wait! If I had sprung that on Joe Carr, he'd simply wait till this Gerald Keene, his partner, turns up. Young Keene might have the money. If he has, then old Carr would get out of my clutches. See? Keene would sure help Carr meet that note. He'd sure

## MRS. E. SEYFERT

Who tells in a sworn statement how Fruit-a-tives brought her lasting recovery from chronic constipation. Mrs. Seyfert, who resides at 78 Seaton street, Toronto, is so happy to be well again that she has given a statement of her experience and made it under oath before a notary to convince you of its absolute truth. Mrs. Seyfert says: "A bad habit of constipation which resulted in continued constipation. For years I felt run down, lacked all vitality. My complexion was yellow. I started taking Fruit-a-tives and now I am up at 6:30 a.m. every morning doing my own housework. My complexion is clear and I am quite regular."

Get Mrs. Seyfert's statement with the seal on request. Write Fruit-a-tives Limited, Ontario, Canada.

FRUIT-A-TIVES—25c and 50c EVERYWHERE

to see him at once. Not a word more than that."

Spike went and ten minutes later Peyotl dropped his hat at the door and came shamelessly into the room. Dustin looked up from some pretended work at the desk.

"It's a good thing for you, Peyotl, that you came at once," he said. "I'm sorry for you, but I don't see how I can help you. . . . Remember old Dad Kane, Peyotl?"

"For heaven's sake lay off that, Mist' Satan!" The man's arm flung up to guard before his eyes and he shivered as though with an ague. "I ain't slept a wink since I came back. . . . I'd never get sleep if it wasn't for . . . fer . . . you know what . . . He tugged a red-and-green cigarette packet from his pocket.

Dustin snatched it from him, tore out four cigarettes and gave them to him, and thrust the package into his desk drawer.

"You damned fool. I've told you a dozen times not to get any of these things except what I give you. If I give you your full allowance. Just suppose you take too many of 'em and talk too much. You know what happens. You'll be hung as high as Haman."

Peyotl looked dazed. He had looked for a coin and perhaps an errand and he found a threat that he only half understood. He could not guess what was coming, but he knew that he was on the verge of being very ill. His stomach was queasy. Man born of woman, cannot smoke unlimited peyotl cigarettes to kill the memory of a murder that he never committed and still carry him like a free man. Peyotl squirmed and Dustin gladly noticed it.

"I wish I could help you, Peyotl," he said. "But I don't see how I can."

"What's the matter, boss? What's come up?"

"You know damned well what you did. The question is how're you going to keep the word from knowin' what you did, too? I'll hate to see you at the end of a rope, Peyotl. You remember Willis?"

Peyotl gulped audibly and sat down. He remembered Willis very well. Caught while in the very act of changing heads on two horses of the Cross Keys stock, Willis had been given two hours to confess his sins. The time had been wholly insufficient and Willis had gone to some questionable place with a larrikin under his neck. Peyotl remembered seeing the long body swinging from the end under a plant live oak while a yellow-hammer and two woodpeckers hammered cheerfully above him. He had never forgotten it and Dustin knew it.

"You see, Peyotl, it's this way. When you killed old man Kane, we thought he was just an old desert rat who had no friends. It seems we were wrong. He had some friends back East. He had a nephew. His name is Gerald Kane or Keene or something like that. Anyhow old man Kane must have written him that he had found a gold mine. This nephew telegraphed that he will be out here to-morrow night to look up his uncle. You know what that means. Every one knows that I've been grubstakin' old man Kane. They'll come to me first. I've told them I may have any questions, Peyotl, you can see that I've got to tell 'em the truth. I'll willin' to help you all I can, Peyotl, but not to the extent of perjury. Of course I know just about how it was. . . . You smoked that damned stuff I've told you to leave alone. You had a bad dream and you got into a doped row with old man Kane and killed him."

Peyotl shuddered. "Mexico ain't so far away," he muttered. "They'd get you there. They extradite for murder in Mexico. I guess you've got to pay the bill, Peyotl. . . . If this man Gerald Kane turns up. . . ."

"That you give him . . ." said Spike, grinning.

Dustin's face turned the color of old dough. He leaned forward and gripped Spike's arm.

"If you weren't my partner, I'd kill you for that word," he said. "Spike shivered. He felt suddenly as though his veins had been filled with ice water.

"Go on," he said awkwardly. "I'm listenin' . . ."

"Aye. Well, when Peyotl saw what he'd done, went to pieces. Old Kane is buried up Red Water canon. No one will ever find him there. Well. . . . This man Gerald Keene is Gerald Kane. He's the nephew of old Kane. . . . That's his name, d'ye see? Gerald Kane is comin' out here to investigate the reported death of his uncle, Dad Kane. . . . If the murderer is discovered, Peyotl Gregg will hang. . . . Is it gettin' clear to you?"

"Good God," said Spike explosively. "Do you expect me to believe that . . ."

"It's not a damn if you believe it or not so long as Peyotl believes it. Get me so far?"

"I sure do. . . ." Spike glanced admiringly at his partner. This would be a master stroke indeed. If Peyotl Gregg, the well-known "hop-head" could be got to kill Gerald Kane, he would have ruined the Hour-glass would pass to old Joe Carr, and they held old Joe Carr's note for the Hour-glass. . . . where Kane and Dustin had located the gold.

"By God," he said, "you've hit it. But I mean it to see how you can pull it off."

"You don't have to see. Go on out of here and tell Peyotl that I want

He had suggested the answer even to a drug-deadened brain.

(To Be Continued)

## McMurray Tar Sands

Denver Firm To Erect Separating Plant In Alberta

Hon. Thomas G. Murphy, minister of the interior, revealed that the government had given permission to Denver, Colo., financial interests to erect in Alberta plants for separating bitumen from McMurray sands and for refining the bitumen to obtain gasoline, fuel oil and asphalt products.

The permission, Mr. Murphy said, was an extension of a former agreement made with the Denver interests represented by Max Ball which had conducted a "pilot" plant in Toronto for preliminary experiments.

The minister added he understood the firm had proceeded with construction in Alberta of a separation plant as soon as weather conditions permitted work and that the separation plant would be followed by a refinery. All the works, he believed, would cost about \$250,000.

Mr. Murphy said the government will not spend any money on the scheme but that the company will be required to pay royalties for the privileges of working the sands.

## Winds Kind To Pilot

Enable Canadian Airways Aviator To Make Flight Record

The gods that control tail winds, it seems, are keeping their eyes on Capt. Walter Gilbert, chief pilot for the Mackinac river division of Canadian Airways, Ltd., and seeing that they are in his favor.

He flew north from McMurray and had a tail wind all the way. He started back on the day following his arrival at Abisko, and again found the winds in the right direction. This time, however, it was blowing along at 85 miles an hour, sending long streamers of snow off the hills.

With the aid of the tail wind, he made a flying time record of a little over 19 hours from Abisko to McMurray. On one stretch of 208 miles from Arctic Red River to Fort Good Hope, he was in the air for just an hour and five minutes in an aeroplane which has a cruising speed of 115 miles an hour.

## THE RHYMING OPTIMIST

By Aline Michaels

## CLOSE AKIN

I have never met Joy Walking down the street; But I'd know the movements Of her dancing feet. She would come as you do, Lightly as a cloud, She would slip like sunbeams Through the weaving crowd.

I have never heard Joy Calling in my ear. But I know her voice must Ring like your doze, dear, With a shimmer and a hum, Deeper far than moths, Sweeter than the sweetest Music made on Earth!

Joy may be a pagan, Joy may be a sprite, Yet I know you share her Infinite delight. Since the day you came to Dwell my heart and brain, I have known that Joy and You are close akin!

## Mothers' Pensions

British Columbia To Increase Allowance By A Small Amount

Recipients of mothers' pensions will have their allowances increased by a small amount, it was stated in the British Columbia legislature by Mrs. Paul Smith (Lib., Vancouver-Burrard). It will be the first step in an upward scale and will be put into effect during the next six months, she said. The government had also decided that mothers with only one child should be eligible for pensions. Although the act provided for such eligibility the practice for years had been to exclude them from benefits.

## Discover Old Coins

Treasure Worth \$5,000 Is Unearthed In Pasture—

At Dorchester, Eng., farmer George Chell's cattle are getting extra-fine fodder these days. While grazing the other day, the cattle kicked up a half dozen gold coins which started the farmer digging in his pasture. He unearthed more than a hundred coins dating back 300 years. The treasure, worth about \$5,000, is believed to have been buried during the reign of the Stuarts. 2088.

## TRY FASTER WAY TO RELIEVE A COLD

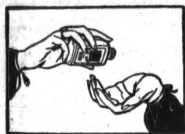

Almost Instant Relief to Millions

Follow Simple Directions: When you have a cold, remember the simple treatment pictured here . . . prescribed by doctors as the quick, safe way.

Results are amazing. Ache and distress go immediately. Because of Aspirin's quick-disintegrating property, Aspirin "takes hold"—almost instantly. Your cold is relieved "quick as you caught it!"

All you do is take Aspirin and drink plenty of water. Do this every 2 to 4 hours the first day—less often afterward. . . . If throat is sore, the Aspirin gargle will ease it in as little as 2 minutes.

Ask your doctor about this. And be sure you get ASPIRIN when you buy. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Aspirin is the trade mark of the Bayer Company, Limited.

1. Take 2 Aspirin tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 2 Aspirin tablets in a glass of water and gargle. This eases the soreness in your throat almost instantly.

## DOES NOT HARM THE HEART

## Would Have Cheque Framed

Alberta Farmer Receives Nineteen Cents In Payment For Cow

One farmer in Alberta has an idea of how to teach his children what hard times mean. He is a neighbor of G. G. Coote, United Farmer member for Macleod. Mr. Coote told about him in the House of Commons.

The farmer sent a cow to the Calgary market and after paying all charges was told his net return would be 19 cents. The agent who sold the cow received 75 cents commission. The charge for the hay the cow ate at the market was 35 cents. He was asked to call in for his money as the amount was too small to pay by cheque but the farmer wanted a cheque.

He said he proposed to have it framed so if at some time in the future his son complained of poor prices he could show him what really low prices were.

He said he proposed to have it framed so if at some time in the future his son complained of poor prices he could show him what really low prices were.

## Foot And Mouth Disease

Canada and South Africa Only Countries Free From This Blight

Canada and the Union of South Africa were said to be the only countries free from the blight of foot and mouth disease, during an agricultural debate in the British House of Commons.

Captain Frank Helligers, Conservative, who farms more than 1,000 acres in west Suffolk, and is a member of the Friesian Cattle Society, said the society had searched the world over for countries free from the disease, and Canada and South Africa were practically the only ones they had found.

All other countries were spending money in research on the disease and were failing to find a remedy, he added.

Long hair was worn by Buffalo Bill and the other Indian fighters as a matter of honor. They believed that their Indian captor was entitled to a respectable scalplock if he captured them.

## The Abundant Vitality of Cod Liver Oil

**PLUS  
PLEASANT TASTE**

For over fifty years doctors have specified "Scott's Emulsion", wherever the bone-strengthening qualities of pure cod liver oil were indicated. For Scott's Emulsion is more than just cod liver oil. Scott's Emulsion is pure cod liver oil, emulsified for easier digestion, greater efficiency and pleasant taste.

**Local and General Items**

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to or hand them in at The Enterprise office no later than Wednesday evenings.

The earth's population is doubling about every 60 years. At this rate, there will be 3,800,000,000 persons on earth before the year 2000 A.D.

George Mauch, Russian, was arrested at Calgary, charged with the murder of Edward Olsen, alias William Decker.

Mr. and Mrs. L. L. Morgan, of Blaimore, and Mr. and Mrs. R. W. Morgan, of Pincher Creek, returned last week end from a two-months vacation in California.

Mr. and Mrs. J. R. Gresham and baby arrived in town last week end from Whiskey Gap, to spend a two-weeks' travel with Magistrate and Mrs. J. W. Gresham.

Mr. and Mrs. Dutton, of Frank, rendered a duet during the evening service at the United church on Sunday last, which was very much enjoyed.

G. D. Fisher, district passenger agent of the C.P.R., was in town from Calgary today and incidentally called on The Enterprise before proceeding west to Fernie.

Oddfellows and Knights of Pythias will hold their grand lodge sessions in Calgary next week. Local district lodges, including the Rebekahs and Pythian Sisters, will be represented.

The next regular meeting of Crow's Nest Chapter, I.O.E.F., will be held at the home of the regent, Mrs. J. McPherson, on Monday, March 11th, at 7:30 p.m.

In Serbia they believe that if a man kicks up a horse shoe he will be married before the year is out. Which shatters the old idea that horse shoes are lucky.

Peter Lund, of Lethbridge, has been quite ill in hospital at Spokane. Mr. Lund was one of the original coal property developers of the Lundbrook district.

A Coleman Scotchman, on the occasion of the celebration of his fortieth birthday, declined to accept bagpipes as a present unless they were accompanied by the necessary amount of wind or "free air."

Programmes will be issued in a few days of the annual St. Patrick's entertainment to be staged in the Columbus hall on the nights of Monday and Tuesday, March 18th and 19th. Further particulars next week.

In the opening game of the senior hockey provincial finals at Coleman last night, Edmonton Superiors nosed out easy victors by a 6 to 1 score. The second game is to be played at Edmonton Saturday night.

A. R. Dempster, of Pincher Creek, one of the oldest oldtimers in the district, as well as being possibly the oldest Oddfellow in Southern Alberta, celebrated his 81st birthday on January the 20th.

The Philomath Group are sponsoring a programme of piano and violin music in the Blaimore United church, commencing at 8:15 p.m. on Tuesday next, March 12th. Admission 25 cents.

Brigadier Spry, accompanied by Major P. V. Harcourt, D.C.M., district engineer officer of Military District 13, and Mr. F. E. Lazenby, will visit this district on Saturday next, March the 9th, and officially inspect the local district camps.

Mr. R. V. Mundy, foreman in charge of the Frank west camp, wishes to thank the Blaimore Enterprise, the Coleman Journal and the citizens of the Crows' Nest Pass in general for various kindnesses shown to the boys' hockey, baseball and other games, as well as privileges to picture shows, donations of cards, magazines, papers, etc.—R. V. MUNDY.

March came in like a lamb.

Newfoundland experienced its first severe storm for this winter on February the 22nd to 25th.

At the regular meeting of the Michel-Natal I.O.O.F. lodge tomorrow night, a class of seven candidates will be initiated.

Oliver Wendell Holmes, known as the "Great Liberal" of the U.S. supreme court, passed away at Washington yesterday, following an attack of bronchial pneumonia. He was 91 years of age.

**AUCTION SALE**

An auction sale of horses, cattle, hogs, implements, harness, etc., will be held at Lundbrook on Wednesday next, March the 13th, commencing at 1 p.m. The following items will be included: 15 mares and geldings, 3 saddle horses, 2 yearling colts, 5 rising two-year-old steers, 5 milch cows (just after freshening), yearling heifer, 5 Yorkshire sows (to farrow early), 10 fat hogs, six sets breeding harness, 2 saddles (suitable for children), heavy stock saddle, 3 mowers, hayrake, rod weeder, manure spreader, 25-foot drag harrow, Verity plow, heavy set disc harrows, Oliver gang plow (single, with breaker and stubble bottom), Massey-Harris disc-tooth cultivator (in good condition), 2 sets wagon gears, demarest, American cream separator, single-shot 22, 12-gauge shotgun, brone have, etc. Terms cash.

This will be a real opportunity to sell and purchase at current prices. Further entries solicited.

H. D. GERRY Auctioneer.

**NOTICE TO CREDITORS AND CLAIMANTS**

IN THE ESTATE OF Frank Kutcher, late of the village of Frank, in the province of Alberta, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Frank Kutcher, who died on the 2nd day of February, 1935, are required to file with the undersigned solicitor for Antonia Kutcher, by the 15th day of April, 1935, a full statement duly verified of their claims and of any securities held by them, and that after that date the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated at Blaimore in the province of Alberta this 2nd day of March, 1935.

J. E. GILLIS, Solicitor for the Executor.
